Vehicle Software

DataBridge™ SS

Better Organization

Simpler Processing

Faster Transactions

Fewer Errors

# Information at Your Fingertips
with Scale House Software

METTLER TOLEDO

The Right Software
Can Help You

DataBridge™ SS is vehicle scale software that can automate your vehicle weighing operation. Whether your business has been operating for years or is just getting started, this powerful software package can make your job easier and your business more profitable.

- Organize your weighing records
- Simplify the scale operator's job
- Speed up transactions
- Eliminate costly errors

Summarize the day with built-in reports and export your transactions to upload into your accounting system.

Better Organization
DataBridge™ SS keeps you organized.

- Store all your weighing records in an optimized and secure database
- Information is at your fingertips, making it easy to retrieve
- Eliminate stacks of paperwork that can get lost or out of order
- Compile reports with a single click and export transactions for accounting

Simpler Processing
DataBridge™ SS is easy to learn and easy to use.

- Anyone can start processing transactions quickly
- Learn at your own pace with step-by-step video instruction
- Transactions are simple with a touch-capable weigh screen

Faster Transactions
DataBridge™ SS boosts productivity for your business.

- Process weighing transactions quickly with just a few clicks
- Weigh more trucks per day
- Provide prompt service for your customers

Fewer Errors
DataBridge™ SS improves efficiency and accuracy.

- Eliminate manual data entry with point-and-click selection of customer, vehicle and other transaction information
- Automate your weighing process to reduce costly errors
- Calculate transactions automatically for accurate ticketing and billing

Experience the Difference…

When You Begin...
Learning new things doesn't have to be difficult.

- Watch 3-5 min videos with step-by-step instructions
- Use one of the lesson plans to guide new employees

While Weighing…
Information is at your fingertips, literally.

- Transaction processing is effortless with a touch-capable weigh screen
- Limit errors and missing information with visual indicators that guide transactions

Before You Leave Work...
Nothing is more frustrating than paperwork after a long day.
